(a) The last complete official quarter previous to the coming into operation of the 3 & 4 Will. IV., terminated on the 26th October, therefore the year returned as the year preceding the operation of this Act terminated on that day.

(b) With respect to this classification, it must be observed, that a certain small portion (the exact amount of which, however, cannot be easily defined) of those expenditures returned here as "Ordinary" might possibly be considered as more properly referrible to the other class, while, on the other hand, those placed under the head of "Extraordinary," relating to the materials, &c. &c. for the construction of the new indexes, though not of *annual*, are still of *periodical* recurrence.

With the exception of the subjects of the above observations, no diminution of expense can be anticipated in future; on the contrary, a very considerable increase of expense, beyond the total expenditure of the last year, must be anticipated in the periodical construction and completion of the consolidated indexes prescribed by 3 & 4 Will. IV. c. 87.

George Moore, Registrar.
